THE DAY IN CONGRESS.

In Valedictory to House McClellan Denounces American Administration in Cuba.

Latter's Government Cost \$7. 000,000 Less Annually Than Did Wood's-Champ Clark's Warning to Majority in the House.

Washington, Nov. 17 .- The House to-day

resumed consideration of the Cuban bill. The only notable incidents of the day were the speeches of Mr. Stevens, a Republican member from Minnesota, who spoke-in opposition to the bill, and the speeches of Mayor-elect McClellan of New York and Champ Clark of Missouri Mr. Stevens opposed the measure for reciprocity with Cuba at the last session. To-day he argued that the bill was a 'cruel blow" at one of the most promis ing agricultural industries of this country and that the measure will imperil our vast foreign trade. Mr. McClellan, the newly elected Mayor of New York, delivered his valedictory to the House making an argument in favor of the bill, during the course of which he criticized esponsibility for what is lacking in the fulfillment of the duty of the United

WOOD'S MALADMINISTRATION. In the course of his remarks, Mr. Mc-Hellan said:

"Two years ago Cuba was on the verge of bankruptcy and that she has escaped ruin is not due to any effort on our part. during the last two years is because of two reasons. First, the change in her government; second, the marketing of an increased amount of tobacco and sugar. "In 1862 the spectacular and extravagant rule of General Wood having saddled upon Havana for ten years the infamous gambling monopoly of the Sociedad Anonima Jai Alai gave place to the conservative, economical, sensible and businesslike administration of President Estrada Palma, who has proved himself an executive of the very highest order."

After quoting figures, McClellan said: "In other words, under President Estrada Palma, the cost of government is more than 5.700,000 less per annum than it was under General Wood."

In conclusion, Mr. McClellan said: "And now, at least, after the years of waiting, after the spectacle of an insolent lobby practically dominating the Congress, we propose to partially fuifill our pledge to Cuba by giving her this tupenny measure of relief, that is warranted not to offend the susceptibilities of the most sensitive trust in existence.

"We have made a solemn promise to Cuba. If a Republican majority, in its might, is only willing to partially keep that promise, the blame and the shame rest with the Republican party. But the boil is unquestionably a breach in the wall of protection."

Mr. McClellan received the applause of his colleagues when he had concluded.

CHAMP CLARK'S SPEECH.

Representative Champ Clark, as a mem ber of the Ways and Means Committee, discussed the pending bill for nearly an hoor and was heard with close attention. His speech was vigorous and witty.

Mr. Clark congratulated the Republicans at: that 'light is breaking on their intellects at last. (Laughter). It is not 'a great awakening light,' such as Abou Ben Adhem saw on a celebrated occasion, but it is an carnest of what may happen in days to come, because it is written in a very

old book that 'a little leaven leaveneth the whole lump."

Speaking of the rule cutting off amendments to the bill. Mr. Clark said the probability is that the Democrats will control the next House and elect the next President, adding:

"The more of these ironclad rules you ram down our throats, the more you will have rammed down yours."

Turning his attention to the Cuban bill Mr. Clark declared with emphasis that the Republicase could not pass the bill without the Democratic vote in the House, adding: "And you know it."

Mr. Clark then got back to politics and quoted what he termed Republican battle cries.

quoted what he termed requirement catteries.

"Your Uncle Mark invented Let well enough alone; he afterwards converted this into 'Stand pat,' and then the able chairman of the Ways and Means Committee, Mr. Payne, added a little 'Keep on letting well enough alone,' and then when your Uncle Mark was being punched over the ropes out in Ohio by Colonel Theodore Rooseveit and Senator Foraker, he added 'For God's sake, let's keep on letting well enough alone.'"

"CANADA WILL BE OURS."

In conclusion, Mr. Clark said: *
"Thomas H. Benton of Missouri, one of always contended that we had an undethe campaign of 1844 was fought, and we ought to have had it then and there never would have been any Alaskan boundary question. I am for it for those reasons.

"I believe that it is among the certainties of the future that Canada and the British possessions will be ours. We will welcome them with open arms. They are our sort of people, they understand our system of government, and they speak our language, and they are fit for American citizenship.

language, and they are fit for American citizenship.

"Before I close I want to make one other remark. As far as this effort to tie the hands of the American Congress for five years is concerned, we utterly repuddate it, and hold it for naught, and you might as well understand that at this time as later, and that whenever we get possession of Congress we will do as we please. (Applause and laughter on the Democratic side.)

"We vote for this bill with that provision in it under duress, and every lawyer in the land knows that what you do under duress is not binding at any future time, and when we get possession of Congress we will abolish that provision with as little eeremony and as little hesitancy as Samson broke the withes that bound him." (Applause.)

Among the exhibitors represented in this shipment are some of the most prominent plant firms in England—the Royal Seed Establishment of Reading, England; Kelway & Son, Lansport, Somersetshire; Carter & Co. London, and H. Cannell & Sons of Swanley, Kent.

To each of these firms has been allotted a particular bed in the garden surrounding the British pavillon. The present shipment comprises a large number of crocus, hyacinth, tulip and irls buibs. These plants all flower in early spring, and will be in place in the beds when the Exposition opens.

Continued From Page One. ises to continue the Baumhoff fight for months to come. At present, Charles Nagel seems to be the commanding figure and is in a position to give advice. It is said that he wishes to harmonize the party in this city and is not averse to allowing the old "practical" bunch of politicians to have a few of the minor appointments which Mr. Wyman can give out.

He is also said to favor the appointment of Baumhoff as Assistant Postmaster, and does not care particularly whether Bartholdt gets any consideration in the minor places.
